◆ League Introduction & History

The Archie League is more than just a game; it's a community-driven movement that embodies inclusivity, generosity, & the power of shared interests to bring people together. The league was started in 2020 by Commissioner Ken, who had the desire to create something meaningful out of love for the game. As a result, the Archie stands as a testament to the positive impact that sports can have beyond the field.

At its core, the Archie serves as a platform for people from diverse backgrounds & regions across the globe to compete & connect thru their shared passion for Fantasy Football. By fostering an environment of camaraderie & mutual support, the Archie not only provides an avenue for friendly competition but also facilitates the formation of genuine friendships that transcend geographical boundaries.

Waiver Wire (WW):

- Each team will be given a WW starting Budget of \$100
- Weekly WW closes every WED at 1:00pm EST
(winning bids will be processed)

Add/Drop:

- Add / Drop Window opens on WED immediately after the WW runs.....but **closes at the start of MNF**.
(This gives owners more flexibility & means transactions can now be made on SUN afternoon or MON)
- Each Player's Roster status **locks at the start of their individual Game Time**
- Once a player's game starts, you can NOT: Add / Drop / Start / Bench that player

Please note: For SUN afternoon, SNF, & MNF: the available FA pool will keep shrinking as time elapses because it will only contain players that haven't played yet that week

The FF owner must have an available slot on their roster or drop someone that hasn't played yet to be eligible to make a pickup

Dropped Players:

When a player is dropped from a roster, they are automatically **locked out for that week**. The dropped player is added to the division waiver pool for next week's blind bid waiver (on Wednesday).

Added Players:

When a player is added to a roster, they are automatically **locked** on the roster.

◆ Archie's Weekly Skins Game

- **Format:**

- The minimum initial Skin Score will be set at **165 Points**.
- If only 1 team breaks the 165-point mark, that highest scoring team wins all of the skin money allocated for that week
 - \$750 USD for the first 12 weeks
 - \$1000 USD for the last 6 weeks
- If more than 1 team scores over 165 points, the prize money is split between all winners
- If no team breaks 165 points, the Skin \$ is carried over & added to the following week skin \$.
- After each week that the Skin is paid out, that week's high score becomes the next week's minimum score to qualify for the Skin.
- If there's a week where no team scores above the minimum, the minimum Skin score reverts back to 165 points.
- **Carried Over Prize at Season End:**
 - Any carried-over prize money at the end of week 18 will be added to the NFL playoff Contest (Boss Bowl) prize money, supplementing the existing \$ prize.This system incentivizes high-scoring performances, fosters competition, & provides an exciting opportunity for franchises to win substantial prize.
